**THE EMPRESS UPRIGHT:** The basic meaning of this card is one of growth, prosperity and fertility. This card is one of the most sought after cards in a spread for women who are looking to start a family, workers looking for promotions at work and businessmen looking to take their business to the next level. This card, however, is more than just the promise of these things. It can also mean that the seeds that you've planted have taken root and now it's time to enjoy the fruits of your labors. The surprising thing about this card is that in many cases, the rewards and gains are much greater than the subject anticipated. Usually, and more often than not, this card simply means that the hard work that the subject has put into something is coming to an end and the time for enjoying the rewards is near.

**THE REVERSED EMPRESS:** this card could signify wasteful energies that are causing failure. This usually affects the home as well as income. This usually occurs when the subject doesn't carefully plan out things and does not manage their affairs properly. This is usually due to simple carelessness. Also it may signify a person who is suffering from extreme poverty. Other meanings include a feeling of emptiness and hopelessness. The Empress is a card of such extremes, as is life. One minute all is going well and the next it seems like the world is falling apart.
