The **Upright Magician** tarot card is at one with himself and all creation. The Magician symbolizes new beginnings, initiative and the ability to perform right action at any given moment. He is master of his own destiny. He is a focused, goal-oriented individual who harnesses the power of creativity, especially through willpower and determination. Adeptly he chooses from the tools at his disposal, the sword of discrimination, the wand of energy, the cup of emotion or the coin of wisdom and wealth. He uses them so deftly that it is as if he performs magic. He reminds us that we already have everything we need to create the life we want for ourselves. We can accomplish anything if we stay focused on what we want.

The **Reversed Magician** indicates an inability to act spontaneously and a sense of constantly *getting it wrong*. In its wake come feelings of failure and inadequacy. Often the reversed Magician shows that the questioner does not know what to do next in their life, what action to take or which interests to pursue.

OUR ANIMAL GUIDES

Woodpecker

The power of Rhythm and Discrimination

The woodpecker is connected to the heartbeat of earth itself. It is associated with shape shifting and movement into other dimensions. It reminds us to see things clearly before we act. Are we analyzing things to much or not enough? Are we being too discriminating of ourselves or others around us or not enough? These are the questions you should be asking if woodpecker shows up in your life. Its time to follow your own unique rhythms to do what works best for you, in the manner that works best for you.

Not forgotten

Meditate

In my head round and round
Fleeting thoughts just bounce around
The stillness prevails
My mind lets go of all details
My heart fills with Love and over flows
The smile on my face lets everyone know
Awareness is peaceful and real
Yet not something the ego can feel
So when the thoughts rush back in
And the grip on serenity wears thin
Breathe deep and let go
Like the ocean just let all thoughts flow
Hold firm on the stillness that sits infinitely just behind
Know Love; Know God and awareness you'll again find
